COMFORT Care
REHA & CARE FURNITURE

COMFORT Care furniture is designed for the nursing or care home;
it provides adequate support, comfort and enables patients to retain their dignity.

COMFORT Care furniture helps nursing staff carry out their job effectively;
it is reliable, long-lasting, easy to use, easy to clean
and require minimum maintenance.

Our beds enable patients to be moved easily
and without any unnecessary strain;
they provide hospital quality and durability,
but also create warmth and harmonise with patient's bedroom
making them feel at home.

MANUAL ADJUSTABLE BED

MB-1 (MB-1/2, MB-1/3, MB-1/4, MB-1/4E)

Bed platform adjustable on Rastomat fittings

Height adjustable feet

MB-1 is a stationary bed, available with either: 2-, 3- or 4-sections manually adjustable bed platform with Rastomat fittings, or four-sections electric adjustable bed platform (model MB-1/4E). Height of bed can be manually adjusted (four levels). Side rails, lifting pole and overbed table are available. Polished wooden / laminate ends and cot sides give it a domestic look. Platform available either with flexible wooden slats for maximum comfort or strong metal mesh or metal slats (easy to clean and disinfect).

external size	205 x 102 cm
height adjustment	45 - 80 cm
for mattress size	90 x 200 cm

FEATURES:

bed platform available with manually adjustable 2, 3 or 4 separate sections

or with electrically adjustable 4 separate sections (MB-1/4E)

raised foot section can reduce stomach compression (only MB-1/4E)

stationary bed frame on adjustable feet

full length adjustable side rails for preventing a patient from falling off a bed

accessories available

available with steel mesh platform

available with flexible wooden slats

available with non-flexible powder-coated steel slats

ELECTRIC ADJUSTABLE BED

HB-1 (HB-1/2, HB-1/3, HB-1/4, HB-1/4E)

HB-1E is a universal adjustable bed which can be used in hospitals or nursing homes. It is available in manual or electric version. Electric version comes with four section platform and three powerful quiet motors. Bed platform is available either with flexible wooden slats for maximum comfort or strong metal mesh or metal slats (easy to clean and disinfect). It has been developed to meet the needs of equipment users requiring a complete nursing solution at an affordable price. Its construction makes transportation, assembly and cleaning very easy. Also available in ULTRA LOW version*.

external size	205 x 102 cm
standard height adjustment	42 - 80 cm
ultra low version height adj.*	19 - 60 cm
for mattress size	90 x 200 cm

FEATURES:

electric motors and hand control

bed lowers for access and raises to stand-u-up

maximum comfort with four separate sections

PRESSURE CARE MATTRESS

RM-01 (RM-01/10, RM-01/14)

RM-01 is a pressure care mattress recommended for use on Comfort Care adjustable bed platforms in aged care, rehabilitation and for those who have difficulty transferring to and from the bed. Made of natural latex which has excellent durability, long life and does not deform. Upper part of the mattress has a firmer latex layer divided into different zones of support which vary according to anatomical distribution of body mass and together with its elastic structure provide effective pressure reduction, even weight distribution and maximum level of patient's comfort. Internal air channels help reduce build up of heat and moisture and high quality antibacterial latex foam prevents germs and fungus growth.

length		200 cm
width		90 cm
height:	RM-01/10	10 cm
	RM-01/14	14 cm

FEATURES:

pressure care

natural latex

designed for adjustable bed platforms

available with antiallergic quilted cover, made of frotte stretch double quilted, washable

available with waterproof breathable cover

anti-bacterial, anti-fungus
